

Measurement Chart

Working Dog Harness

Please complete and return this form to Catac, details below.

Name of Dog

Enter name of dog the harness is for.

Breed of Dog

Enter breed of dog the harness is for.

GIRTH MEASUREMENT A (in centimetres please)

Round body just behind front legs. This strap is adjustable by about 23cm allowing for growth and a good fit, with plastic side release buckle.

CHEST MEASUREMENT B (in centimetres please)

From back of shoulder round chest to back of other shoulder. Please note this strap is not adjustable and accurate measurement is therefore important for a good fit.
